💎 TECHNICAL SKILLS

Frontend

- React
- Typescript
- JavaScript
- Tailwind CSS
- React Native

Backend

- Node.js
- Express.js
- REST APIs
- [Socket.io](#)
- WebRTC

DATABASES

- PostgreSQL
- MongoDB
- Prisma ORM

State Management

- Redux
- Zustand

Tools & DevOps

- AWS EC2 & S3
- Git
- GitHub
- Postman
- Railway
- Vercel
- Netlify

📖 EDUCATION

MCU Bhopal
BCA | 8.2 cgpa
2019 - 2022

🌐 LOCALIZATION

English
Hindi

📁 WORK EXPERIENCE

Software Developer | [SleekSky](#)

JAN 2023 - JAN 2026

[SleekCMS](#) - Enterprise CMS

- Owned SleekCMS end-to-end for 3 years-driving feature development, performance tuning, bug fixes, and direct client support while maintaining 99.7% uptime through zero-downtime deployments.
- Architected scalable backend with Node.js/Express and PostgreSQL, optimizing complex queries to reduce latency by 35%, and engineered real-time collaborative editing using [Socket.io](#) with <200ms response time.
- **Built high-performance React frontend** with Redux state management, reducing bundle size by 25% via code-splitting, and delivered **15+ major features** across agile sprints in cross-functional teams.

📁 OWN PROJECTS

[Chatly](#) - Social Media Chat Platform

[CODE](#)

React • TS • Node • [Socket.io](#) • WebRTC • Zustand

- Enabled real-time one-to-one chat with message edit/delete, media sharing (image/video), and live typing indicators using [Socket.io](#).
- Integrated WebRTC for peer-to-peer video/audio calling with signaling server coordination.
- Built secure auth flow (login/register/change-password/forgot-password/reset-password with email OTP) and deployed on Railway (backend) + Vercel (frontend) .

[Shortly](#) - URL shortner

[CODE](#)

React • Zustand • Node • Express • PostgreSQL • Prisma

- Built custom URL shortener with nanoid-generated short codes, custom aliases, and QR code generation with share/download capabilities.
- Implemented comprehensive click analytics tracking IP, geolocation, device, browser, OS, and referrer using PostgreSQL with Prisma ORM.
- Added user-friendly features including one-click copy, click counter, and deployed on Netlify (FE) + Railway (BE) with free-tier hosting.
